I recently had a bad experience with the coil packs on my 1995 Miata. You may want to share this on the site. I recently bought a 1995 Miata and had a friend do a compression check on the motor. He pulled the fuse for the fuel injection and proceeded to remove one spark plug and plug wire at a time and check the

same basic engine as the Miata and it has a conventional distributor, but unfortunately the distributor has a solid shaft and no centrifugal/vacuum advance. You could easily adapt an old school distributor from a VW /Fiat/ or other small four cylinder to fit a Miata engine.
