to think critically about issues from multiple perspectives. The World of Children is a chronological child development text. MyPsychLab is available with World of Children, 3e. Through MyPsychLab, students have access to MyVirtualChild, an interactive web-based simulation that allows students to raise a child from birth to age 18 and monitor the effects of their parenting decisions over time. A better teaching and learning experience The teaching and learning experience with this program helps to: Personalize Learning — The new MyPsychLab delivers proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students and instructors achieve their goals. Improve Critical Thinking — Prompts throughout each chapter jumpstart readers' critical thinking process. Engage Students — Real-life cases encourage students apply what they are learning. Also, students can raise a child through MyVirtualChild. Explore Research — With over 600 new research citations, this new edition reflects the latest research in the field of child psychology. Understand Different Perspectives — Several perspectives are included in the reading to help students think about the content from different points of view. Support Instructors — New MyPsychLab Video Series. These cross-cultural videos feature original footage filmed in the United States, Mexico, and Botswana. Guided by series editor Ashley Maynard (University of Hawaii, Manoa), they show how culture impacts child development. Videos are available in multiple formats: on an instructor's DVD, tied to quizzes in MyPsychLab, and called out in the chapter with “ Watch ” icons. This Book a la Carte Edition is an unbound, three-hole punched, loose-leaf version of the textbook and provides students the opportunity to personalized their book by incorporating their own notes and taking the portion of the book they need to class – all at a fraction of the bound book price.

This innovative, 13-chapter text examines psychological issues from the levels of the brain, person, and social world to help students actively apply psychology to their lives. Offered in digital format or on-demand custom format. Through their own research, clinical work, and experiences as teachers, Stephen Kosslyn and Robin Rosenberg have found that exploring psychology from multiple perspectives further enhances learning. Examining psychological concepts from the levels of the brain (biological factors), the person (beliefs, desires, and feelings), and the world (social, cultural, and environmental factors) and their interactions helps students organize and integrate topics within and across chapters and actively apply psychology to their lives.
