Kuklin ' s important new book brings welcome clarity to a subject that has often been obscure and gives faces—literally and metaphorically—to a segment of the teen population that has too long been invisible. Speaking with equal impact to both the reader ' s heart and mind, Beyond Magenta is highly recommended. Grades 7-12.

I really felt as though this book was missing a lot of crucial pieces to people wanting to understand the transgender teen experience or even for transgender teens to see others like them. Overall, I really was not impressed.

Winner of the 2018 Outstanding Book by the Michigan Council Teachers of English Winner of the 2017 AERA Division K (Teaching and Teacher Education) Exemplary Research Award This book draws upon a queer literacy framework to map out examples for teaching literacy across pre-K-12 schooling. To date, there are no comprehensive Pre-K-12 texts for literacy teacher educators and theorists to use to show successful models of how practicing classroom teachers affirm differential (a)gender bodied realities across curriculum and schooling practices. This book aims to highlight how these enactments can be made readily conscious to teachers as a reminder that gender normativity has established violent and unstable social and educational climates for the millennial generation of lesbian, gay, bisexual, transgender, intersex, (a)gender/(a)sexual, gender creative, and questioning youth.

With refreshing candor, photos and interviews usher us into the lives of eleven undocumented young people bravely speaking out. " Maybe next time they hear someone railing about how terrible immigrants are, they'll think about me. I ' m a real person. " Meet nine courageous young adults who have lived in the United States with a secret for much of their lives: they are not U.S. citizens. They came from Colombia, Mexico, Ghana, Independent Samoa, and Korea. They came seeking education, fleeing violence, and escaping poverty. All have heartbreaking and hopeful stories about leaving their homelands and starting a new life in America. And all are weary of living in the shadows. We Are Here to Stay is a very different book than it was intended to be when originally slated for a 2017 release, illustrated with Susan Kuklin ' s gorgeous full-color portraits. Since the last presidential election and the repeal of DACA, it is no longer safe for these young adults to be identified in photographs or by name. Their photographs have been replaced with empty frames, and their names are represented by first initials. We are honored to publish these enlightening, honest, and brave accounts that encourage open, thoughtful conversation about the complexities of immigration — and the uncertain future of immigrants in America.

Jazz Jennings is one of the youngest and most prominent voices in the national discussion about gender identity. At the age of five, Jazz transitioned to life as a girl, with the support of her parents. A year later, her parents allowed her to share her incredible journey in her first Barbara Walters interview, aired at a time when the public was much less knowledgeable or accepting of the transgender community. This groundbreaking interview was followed over the years by other high-profile interviews, a documentary, the launch of her YouTube channel, a picture book, and her own reality TV series—I Am Jazz—making her one of the most recognizable activists for transgender teens, children, and adults. In her remarkable memoir, Jazz reflects on these very public experiences and how they have helped shape the mainstream attitude toward the transgender community. But it hasn't all been easy. Jazz has faced many challenges, bullying, discrimination, and rejection, yet she perseveres as she educates others about her life as a transgender teen. Through it all, her family has been beside her on this journey, standing together against those who don't understand the true meaning of tolerance and unconditional love. Now Jazz must learn to navigate the physical, social, and emotional upheavals of adolescence—particularly high school—complicated by the unique challenges of being a transgender teen. Making the journey from girl to woman is never easy—especially when you began your life in a boy's body.

Five refugees recount their courageous journeys to America -- and the unimaginable struggles that led them to flee their homelands -- in a powerful work from the author of Beyond Magenta and We Are Here to Stay. "From 1984, when I was born, until July 16, 2017, when I arrived in the United States, I never lived in a place where there was no war." -- Fraidoun An Iraqi woman who survived capture by ISIS. A Sudanese teen growing up in civil war and famine. An Afghan interpreter for the U.S. Army living under threat of a fatwa. They are among the five refugees who share their stories in award-winning author and photographer Susan Kuklin's latest masterfully crafted narrative. The five, originally from Afghanistan, Myanmar, South Sudan, Iraq, and Burundi, give gripping first-person testimonies about what it is like to flee war, face violent threats, grow up in a refugee camp, be sold into slavery, and resettle in America. Illustrated with full-color photographs of the refugees' new lives in Nebraska, this work is essential reading for understanding the devastating impact of war and persecution -- and the power of resilience, optimism, and the will to survive. Included in the end matter are chapter notes, information on resettlement and U.S. citizenship, historical time lines of war and political strife in the refugees' countries of origin, resources for further reading, and an index.

A journalist and activist who was profiled in a 2011 Marie Claire feature outlines bold perspectives on the realities of being young, multi-racial, economically challenged and transgender in today's America, recounting her disadvantaged youth and decision to undergo gender reassignment surgery at the age of 18 before pursuing a career and falling in love.

A personal account by a college student who endured years of bullying and disapprobation describes how after numerous failed therapies she accepted her transgender status and began learning how to be a girl while pursuing surgical gender reassignment. A first book.
