After years of relative neglect, culture is finally receiving due recognition as a key factor in the evolution and resolution of conflicts. Unfortunately, however, when theorists and practitioners of conflict resolution speak of culture, they often understand and use it in a bewildering and unhelpful variety of ways. With sophistication and lucidity, "Culture and Conflict Resolution" exposes these shortcomings and proposes an alternative conception in which culture is seen as dynamic and derivative of individual experience. The book explores divergent theories of social conflict and differing strategies that shape the conduct of diplomacy, and examines the role that culture has (and has not) played in conflict resolution. The author is as forceful in critiquing those who would dismiss or diminish culture's relevance as he is trenchant in advocating conflict resolution approaches that make the most productive use of a coherent concept of culture. In a lively style, Avruch challenges both scholars and practitioners not only to develop a clearer understanding of what culture is, but also to take that understanding and incorporate it into more effective conflict resolution processes."

The "Just the Tools" edition of "Conflict Resolution for Couples" is an abbreviated version of Paul Shaffer's first book, "Conflict Resolution for Couples" - originally published in 2005, and then re-published in 2011. This leaner edition "cuts to the chase" of couple's conflict resolution, without the foundational and special population sections that made the original book a much meatier but time-consuming work. "Just the Tools", while a stand-alone title, also serves as a companion book to Paul's "Top 10 Marriage Essentials" published in 2014 (and the "Top 10 Dating Essentials" projected for 2015). It retains the same comprehensive, easy-to-understand, and logical progression found in the original. This book consists of essentially two parts: Part I is about the tools for resolution. It presents a model for managing conflict and itemizes 26 guidelines (the ABC's of conflict resolution) for identifying, validating, processing and resolving issues. Part II discusses strategies for change. It focuses on initiating and maintaining change, understanding lack of change, and healthy routines to support lasting change.
