IDEO founder and Stanford d.school creator David Kelley and his brother Tom Kelley, IDEO partner and the author of the bestselling The Art of Innovation, have written a powerful and compelling book on unleashing the creativity that lies within each and every one of

us. Too often, companies and individuals assume that creativity and innovation are the domain of the "creative types." But two of the leading experts in innovation, design, and creativity on the planet show us that each and every one of us is creative. In an incredibly

entertaining and inspiring narrative that draws on countless stories from their work at IDEO, the Stanford d.school, and with many of the world's top companies, David and Tom Kelley identify the principles and strategies that will allow us to tap into our creative potential

in our work lives, and in our personal lives, and allow us to innovate in terms of how we approach and solve problems. It is a book that will help each of us be more productive and successful in our lives and in our careers.

Considered by many to be mentally retarded, a brilliant, impatient fifth-grader with cerebral palsy discovers a technological device that will allow her to speak for the first time.

"A biography of Kenyan Nobel Peace Prize winner and environmentalist Wangari Maathai, a female scientist who made a stand in the face of opposition to women's rights and her own Greenbelt Movement, an effort to restore Kenya's ecosystem by planting millions of

It's Collection Week at school and Kate signs up to show a collection - which she doesn't have! Time is running out. What can she do?

Jake thought he had life all figured out. He had the perfect girlfriend, a starting position on the Varsity baseball team, and a raging social life. He was living the dream. That is, until he discovers that he's in danger of losing his scholarship. The ultimatum? Get a tutor; or

get out. Jake has no choice but to buckle down and put his head in his books. No sweat, right? The only problem is that the only person available to tutor him is a quiet nerd who would rather be alone than spend any time with a headstrong jock who isn't used to applying

himself to anything but sports. For Kyle, college was only a formality. He didn't need the degree, and he barely attended his classes and still passed with flying colors. Instead of sitting in class, he'd rather be chasing his true passion--designing and programming an

original MMORPG game. Kyle doesn't need a social life, and he definitely doesn't need a boyfriend, especially because that would require stepping out of the closet, something he has no intention of doing any time soon. The only problem? He's been assigned to tutor a

handsome jock who would much rather be out on the field than stuck in a classroom. When it comes to having life figured out, Jake and Kyle will have to realize that there's more to life than good grades and games. Neither one of them is ready for what their newfound

camaraderie will mean; but the bases are loaded and it's time to step up to the plate. Trading Teams is a standalone college romance featuring a nerdy gamer and a jock with his head in the clouds. This steamy romance includes intimate scenes of graphic sex and is

intended for mature readers only. Batter up!
