A guide to the secrets of rune-reading, an ancient predictive art, that teaches you how to lay out runes and interpret them instantly. Once the sacred alphabet of the Germanic people of Northern Europe, runes are more than 2,000 years old. Runes (meaning a secret or mystery) were words of power, once carved on amulets, rings and weapons, and found as inscriptions on tombstones. The 1st rune, Fehu, is connected with cattle, and since wealth was measured in the number of cows a person owned, it has an underlying meaning of material wealth. The 11th rune, Isa, literally means 'ice', signifying danger and the probability of slipping up. Likewise, the 17th rune, Tiwaz, shares its significance with the North Star as an aid to navigation and charting life 's path. In this insightful book, each of the runes is fully described, together with the symbolic images and celestial phenomena associated with them. Methods of laying out, or 'casting' the runes are described in order to give a full and comprehensive reading to answer any question. There are six spreads to choose from, from Odin 's Rune, a simple reading with one rune stone, to using up to nine runes for deeper insight into the past, present and future.

This guidebook will help you discover the oracular nature of the runes and how to use them as a magickal tool for insight, protection, and luck.

Although many of us first encountered runes in J.R.R. Tolkien's Lord of the Rings, this sacred alphabet is by no means a fabrication for books or movies. Similar to Hebrew letters in the sense that each symbol contains a meaning that transcends its original function as a letter, the runes are practical, flexible, and effective symbols with a variety of uses. From the introduction: Effective use of the runes requires both the old wisdom and the new. The student must not only consciously study the meanings ascribed to the runes by earlier scholars, but must internalize them. Today, the best-known application of rune lore is divination: chips or stones marked with the runes are drawn, cast, or laid out in patterns like tarot cards. In Taking Up the Runes, Paxson delves into the ancient historical meaning of each rune and explains their contemporary uses and meanings. We discover that the real power of runes comes from inside ourselves when we find the wisdom and power within each symbol and internalize them. Taking Up the Runes is the ultimate workbook for using the runes on a psychic, spiritual, and magical level. Learn how to make your own rune set and how to use the runes in guided meditations and song.

With 78 illustrated cards and a detailed, illustrated book, this powerful and original set combines the tarot with Celtic lore and runic symbology.
