Concealed carry, or carrying a concealed weapon (CCW), is the practice of carrying a weapon (such as a handgun) in public in a concealed manner, either on one's person or in close proximity. Not all weapons that fall under CCW laws are lethal. For example, in Florida, carrying pepper spray in more than a specified volume (2 oz.) of chemical requires a CCW permit, whereas everyone may legally ...

This handy, portable reference of the laws and rules governing concealed carry in Tennessee is a must-have for handgun owners, concealed carry students and those concerned with their second amendment rights. It contains helpful information for both the gun hobbyist and legal practitioners. This indispensable resource is available only from LexisNexis.

The growing concern over the number of accidental firearm shootings, especially those involving children, prompted passage of the initial handgun safety law which went into effect in 1994. The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms, including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser/recipient must also successfully perform a safe handling demonstration with that firearm..

You arm yourself so you're hard to kill. Know the law so you're hard to convict. Let's face it, the world isn't always nice. That's why you take steps to protect yourself and your family. Whether it be that shotgun in the corner, the sidearm on your hip, or the pepper spray you gave your daughter, you meet that fundamental responsibility. But if you're like most people, your preparations still lack a critical element. You still need to know how to survive the critical fight that looms after any defensive encounter: the legal battle. The Law of Self Defense provides precisely that critical, missing knowledge. This book includes not just the laws of all fifty states, but how the courts apply those laws. It's a plain-talk analysis that makes the law easy to understand for anyone, not just lawyers. Bestselling author, Andrew F. Branch, is not only a lawyer and internationally recognized legal consultant, but also a life-long member of the gun community--more than 20 years as an NRA Life Member and Instructor, an IDPA Master-class competitor, and a 2nd Amendment absolutist. Learn how to make fast, effective decisions and confidently handle life-and-death situations both tactically and legally. Read This Book And Learn the Powerful Legal Truth That Can Save Your Life, Wealth And Personal Freedom

Concealed Carry Bible A Complete Self Defense Guide A to Z There are too many books about self-defense and handguns. I know. I see them and read a few of them. But one thing I noticed lacking is how a gun can protect you in a self-defense situation. Most experts tell you what guns to buy, how to train with them, how to load them and how to shot them, but is that all you need to know? How do you find out when the time comes you will be able to pull the trigger? When I teach people about self-defense, I teach them about the ins and outs of handguns that are popular, how they work and what and how to fix common issues. But I hope that is not why you would read this book, I want to prepare you mentally, and physically and I want you to know all the laws that may affect you along with making you a master of concealed carry where you are comfortable, confident and will know when and how to use it if the time ever comes. I never thought my education and training would be put to test until one fateful day when I found myself in the middle of a gang related shoot out situation where I did have to draw my gun and use it. Let's just say I was little faster. That situation taught me a lot about the legal system and the abuse that goes on in the government everyday basis. But the important thing is I survived through it, and it made me a better person both as a human being and as an instructor who teaches self-defense through concealed carry. Regardless what you hear about declining crime rate, just remember the world population is growing at a much faster rate than the resources we survive on. When this happens you can imagine, more people will fight over the same resources than before. It won't surprise me if there will be a day when it will be "survival of the fittest" law meaning who has more strength, and power will win and have access to the resources. I am not trying to scare you; we are not there yet, it may never happen, but what if it does? Should we be ready? I believe we do. So if you can learn some basic self-defense handgun skills and learn to protect yourself and your family, it won't be such a bad thing would it? I tell my students, 97% of the people who carry guns will never have to use them on anyone, but it is there in case they ever need it. In my opinion, there is no harm in learning a new skill, specialty, if that skill can save lives.
