ENGINEERING SCIENCE N4 - PrepExam

Engineering Studies. At Technicol SA College, you can study towards a wide range of engineering subjects that will earn you a Diploma (together with the relevant practical) issued by the Department of Higher Education and Training and regulated by QCTO.

The study guide provides students with key physical quantities and equations, misconceptions to avoid, questions and practice problems to gain further understanding of physics concepts, and quizzes to test student knowledge of chapters. All written with the same level of detail as the examples found in the text.

Blended Learning combines the conventional face-to-face course delivery with an online component. The synergetic effect of the two modalities has proved to be of superior didactic value to each modality on its own. The highly improved interaction it offers to students, as well as direct accessibility to the lecturer, adds to the hitherto unparalleled learning outcomes. "Blended Learning in Engineering Education: Recent Developments in Curriculum, Assessment and Practice" highlights current trends in Engineering Education involving face-to-face and online curriculum delivery. This book will be especially useful to lecturers and postgraduate/undergraduate students as well as university administrators who would like to not only get an up-to-date overview of contemporary developments in this field, but also help enhance academic performance at all levels.

The perfect way to prepare for exams, build problem-solving skills, and get the grade you want! For Chapters 1-22, this manual contains detailed solutions to approximately 20% of the problems per chapter (indicated in the textbook with boxed problem numbers). The manual also features a skills section, important notes from key sections of the text, and a list of important equations and concepts. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
