neurologist and sleep expert W. Chris Winter will help you

- Understand how sleep works and the ways in which food, light, and other activities act to help or hurt the process
- Learn why sleeping pills are so often misunderstood and used incorrectly—and how you can achieve your best sleep without them
- Incorporate sleep and napping into your life—whether you are a shift worker, student, or overcommitted parent
- Think outside the box to better understand ways to treat a multitude of conditions—from insomnia to sleep apnea to restless leg syndrome and circadian sleep disorders
- Wade through the ever-changing sea of sleep technology and understand its value as it relates to your own sleep struggles

Dubbed the “Sleep Whisperer” by Arianna Huffington, Dr. Winter is an international expert on sleep and has helped more than 10,000 patients rest better at night, including countless professional athletes. Now, he’s

bringing his experiences out from under the covers—redefining what it means to have optimal sleep and get the ZZZs you really need...
INCLUDES TIPS, TRICKS, EXERCISES, AND ILLUSTRATIONS

6th Edition Update: Includes Over 100 CPAP Comfort Hacks. Sleep Apnea Could Be Killing You... Sleep Apnea is widely prevalent, affecting 1 in 15 people. As well, it is VERY often either left poorly treated, or not at all. When either happens, a cascade of other diseases frequently exists. These diseases, (High Blood Pressure, Diabetes, Strokes, and so many more) are often treated symptomatically without treating the actual cause. Sleep apnea can be the reason for so many of these diseases. The amount of treatment options is extensive, with only a select few that lead the

way. Some suggest CPAP, some suggest oral appliances, and some will try everything available with little success. You've heard it all before, we need to get a quality night sleep of 6-8 hours to function optimally (about a 3rd of our lives). If you have been diagnosed with sleep apnea, you need to get treated...FAST. This is Where This Book Will Help You or a Loved One Immensely! We'll go over the EXACT treatment options available, from LEAST invasive to MOST invasive. Along the way we'll debunk the options that actually work (and the ones that are crap). We'll also cover some of the future treatments only in this sixth edition. While it is always of utmost importance to seek advice of your doctor, this book will help you in understanding some of those treatment options. As well as perhaps what to ask at your next doctor or sleep clinic visit. Do You Want To Breathe & Sleep Easy Again? Start Hacking Sleep Apnea
