Wilson b, James E. Cooper a, Arthur Gilmour Food Microbiology Research Division, The Queen's University Belfast, Agriculture and Food Science Centre, Newforge Lane, Belfast BT9 ...

Some factors inhibiting amplification of the ...

1. Introduction. One of the fundamental principles of food safety is based on a division of foods into low-acid and high-acid categories and application of preservation treatments of different rigor in the two cases. The boundary set at pH 4.6 presumes that the hydrogen ion concentration is the only concern for determining the effects of the acids.

Validation of bacterial growth inhibition models based on ...
