Honda revamped the CBR600 in 2003 to produce a track-focused CBR. It had a 117bhp motor, radial brakes, and an inverted fork. The features made it an unforgiving competition on the road. It is not only designed to be a winner but also as a mark of biking quality and safety on and off the tracks. Some models are very rare finds such as the 2003 600RR, so buy them while you can.
