Les Gu é rill é res - Wikipedia
Les Gu é rill é res by Monique Wittig, David Le Vay ... just as a way of envisioning their goals being met. Violent imagery abounds. Although Les Guerilleres is considered a classic, it didn't sell well in English; I had to read it in French, so I'm not sure exactly how violent the imagery seems to people familiar with contemporary phrases. Everyone in the US knows that, coming from a comedian ...

Les Gu é rill é res - Iagh Italia
Monique Wittig was born in the Haut Rhin department in Alsace. She moved to Paris in the 1950s, where she studied at the Sorbonne. Her first novel, L'Opopanax, published by Minuit in 1964, immediately drew attention to her when it was awarded the Prix M é dicis by a jury that included Nathalie Sarraute, Claude Simon, and Alain Robbe-Grillet.

Front Page | Monique Wittig
Monique Wittig published Les Guerilleres in 1969, at a time when the whole world seemed on the brink of revolutionary change. It is the story of a successful feminist war against patriarchy. It was one of the most widely read feminist texts of the twentieth century both dated and ahead of its time.

Events | Monique Wittig
Wittig (1935-2003) was an author, theorist, and activist. Her engagement in literature and politics was rooted in feminism and lesbianism: all her books, whether novels or theory, interrogate how we approach history and explore feminist utopias.

One of the most widely read feminist texts of the twentieth century, and Monique Wittig ' s most popular novel, Les Gu é rill é res imagines the attack on the language and bodies of men by a tribe of warrior women. Among the women ' s most powerful weapons in their assault is laughter, but they also threaten literary and linguistic customs of the patriarchal order with bullets. In this breathtakingly rapid novel first published in 1969, Wittig animates a lesbian society that invites all women to join their fight, their circle, and their community. A path-breaking novel about creating and sustaining freedom, the book derives much of its energy from its vaulting of the female body as a resource for literary invention.

These political, philosophical, and literary essays mark the first collection of theoretical writing from the acclaimed novelist and French feminist writer Monique Wittig. " Among the most provocative and compelling feminist political visions since The Second Sex. These essays represent the radical extension of de Beauvoir ' s theory, its unexpected lesbian future. Wittig ' s theoretical insights are both precise and far-reaching, and her theoretical style is bold, incisive, even shattering. " —Judith Butler, Johns Hopkins University

Monique Wittig, who died in January 2003, was a leading French feminist, social theorist, prose poet, and novelist—and an activist who helped start the lesbian and women's liberation movements in France. This collection of essays by Wittig and on her work is the first sustained examination in English of her broad-ranging political, literary, and theoretical viewpoints. On Monique Wittig contains twelve essays, representing French, Francophone, and U.S. critics, including three previously unpublished pieces by Wittig herself. Among the essays is Diane Griffin Crowder's discussion of the U.S. feminist movement, Linda Zerilli's consideration of gender and will, and Teresa de Lauretis's examination of the development of lesbian theory. Together, these essays situate Wittig's work in terms of the cultural contexts of its production and reception. This volume also contains the first authenticated chronology of Wittig's life and features the first translation of "For a Movement of Women's Liberation," which Wittig published with other "militantes" in May 1970. As the first book to appear on Wittig following her death, On Monique Wittig is an indispensable tool for feminist scholars.

Back in print, this daring novel constitutes a rhapsodic hymn to women's bodies and women's relationships."That rare work in fiction ... the art and the courage are of the highest level." —The Boston Globe

Beautiful War explores the interdependent political, linguistic, and erotic registers of lesbian feminism in Monique Wittig's novels, querying in particular how they function collectively to destabilize male hegemony and heterosexism. Beginning with the assertion that Wittig expressly dismantles the Classical veneration of la belle femme in order to create an agent more capable of social change (la femme belliqueuse), the author traces the permutations of violence through her four novels, L'Opopanax, Les Gu é rill é res, Le Corps Lesbien, and Virgile, Non and examines the relevance of brutality to Wittig's feminist agenda. Drawing on literary criticism, intellectual and political history, queer theory, and feminist theory in his readings of the primary texts, the author argues that Wittig's oeuvre constitutes a progressive textual actualization of paradigm shifts toward gender parity and a permanent banishment of the primacy of male and heterosexist political and sexual discourse.

Scholars and activists often narrate the history of gender and feminism as a progression of "waves," said to mark high points of innovation in theory and moments of political breakthrough. Arguing for the notion of multiple futurities over that of progressive waves, Beyond Gender combines theoretical work with practical applications to provide an advanced introduction to contemporary feminist and sexuality research and advocacy. This comprehensive monograph documents the diversification of gender-related disciplines and struggles, arguing for a multidisciplinary approach to issues formerly subsumed under the unified field of gender studies. Split into two parts, the volume demonstrates how the notion of gender has been criticized by various theories pertaining to masculinity, feminism, and sexuality, and also illustrates how the binary and hierarchical ordering system of gender has been troubled or overcome in practice: in queer performance, legal critique, the classroom, and textual analysis. Taking a fresh approach to contemporary debates in feminist and sexuality studies, Beyond Gender will appeal to undergraduate students interested in fields such as Feminism and Sexuality Studies, Gender Studies, Feminist Theory, and Masculinity Studies.

As the field of translation studies has developed, translators and translation scholars have become more aware of the unacknowledged ideologies inherent both in texts themselves and in the mechanisms that affect their circulation. This book both analyses the translation of queerness and applies queer thought to issues of translation. It sheds light on the manner in which heteronormative societies influence the selection, reading and translation of texts and pays attention to the means by which such heterosexism might be subverted. It considers the ways in which queerness can be repressed, ignored or made invisible in translation, and shows how translations might expose or underline the queerness — or the homophobic implications — of a given text. Balancing the theoretical with the practical, this book investigates what is culturally at stake when particular texts are translated from one culture to another, raising the question of the relationship between translation, colonialism and globalization. It also takes the insights derived from intercultural translation studies and applies them to other fields of cultural criticism. The first multi-focus, in-depth study on translating queer, translating queery and queering translation, this book will be of interest to scholars working in the fields of gender and sexuality, queer theory and queer studies, literature, film studies and translation studies.
