This book meets the challenging requirements of CSIR-NET, GATE, IARI, BARC and Ph.D entrance of various Indian universities.

Graduate Aptitude Test in Engineering (GATE) is one of the most competitive exams taken by engineering graduates. The Indian Institute of Science (IIS), Bangalore and the seven Indian Institute of Technology (IITs) jointly conduct the GATE exam every year. GATE provides a golden opportunity for aspirants to develop their interests in various aspects of science. It is very popular among engineering aspirants as it facilitates them with innovative and learning experience in the field of science and technology. The Indian Institute of Technology, Delhi is the chief organizing institution of GATE Life Sciences 2020.

Today ' s academic environment presents assessment challenges defined by an increased volume of available information coupled with increased competition among students and time constraints. Multiple choice questions (MCQs) provide examiners with an opportunity to assess academic performance on the basis of instant recollection of correct answers in a minimal amount of time. MCQs Series for Life Sciences Volume 1 is a collection of MCQs on advanced topics and offers the following benefits for readers: Includes over 2600 relevant MCQs Covers five advanced subjects including biochemistry, cell biology, developmental biology, genetics & molecular biology and immunology. Simplified language and presentation of concepts Answers to each question are provided This MCQs eBook series in life sciences is, therefore, a handy reference for graduate and postgraduate students undertaking examinations or entrance tests as well as teachers or examiners involved in setting and controlling assessments in specific subjects in life sciences.

Contents: Introduction, The Conception, Fundamental Issues, Structural Setup, Objectives and Goals, Methods of Teaching, Teaching Aids, Systematic Learning, The Curriculum, Planning the Lessons, The Practicals, Assessment Process, Extra Curricular Programmes, Search for Talent, Teacher s Role.

This book shares an very unique approach to help the aspirants crack CSIR-UGC NET Life Sciences for the eligibility in Lectureship and Junior Research Fellowship. It contains a manifold of preparatory ideas and strategies in a manner suitable for conceptual understanding and cracking a big-picture vast-syllabus exam such as the NET. Various questions are discussed and the flow of ideas which help in solving those questions, not just from rote memorization, is elucidated. Taking care of the need of brevity and action-oriented approach, the text has been concisely summarized, aimed at bringing out the most out of each aspirant in the most compact format possible. The whole matter in this book is divided into four sections. They sections are- 1)ABOUT THE EXAM AND RECOMMENDED BOOKS 2)PREPARING EFFECTIVELY IN BIOLOGY-SOME USEFUL SECRETS 3)MAKING EFFECTIVE NOTES- A FEW EXAMPLES 4)SOLVING METHODS FOR THE APTITUDE QUESTIONS The methods include various refined techniques including classification on the basic of Complexity, being careful about binary choices, using techniques of sweeps rather than jabs, Understanding the basics of evolution and a comprehensive outlook on preparation based on visualization and quantitative techniques. A section is dedicated for guidance on how to make effective notes. A part is also dedicated for Part-A questions which is an important differential in candidates who crack the exam as opposed to who fail to do so. This book does NOT contain notes to directly prepare the subject matter from(the use of which is not recommended at all). About the Authors- Nirupama Bhattacharyya Goswami is the former Principal of Dr. Bhupendra Nath Dutta Smriti Mahavidyalaya, Hatgobindapur, WB and was formerly the director of Netaji Subhas Open University, Kalyani Campas, Kalyani, West Bengal. She is also a professor in Botany (currently on leave) with a PhD in Pteridology. She is the recipient of S.S Bir Gold Medal for Pteridology and has received numerous awards and recognition in her career. She is also currently researching on angiospermic establishment and propagation in India. Besides her job and research, she is an ardent fan of Sudoku and other logical puzzles, and evolving teaching methodologies. Bishnu Goswami is a highly rated author in books for CSIR UGC NET and has qualified the exam at the first year of his Graduate studies with both Lectureship and JRF. He is also a software developer in numerous computing platforms. He has published in reputed journals and have won the first prize in World Science Congress twice. He also maintains a blog and an website related to software development. Apart from his research interests, he is very interested in hunting the illusion of difficulty in competitive exams. Best of Luck!

The present book of Solved Practice Test Papers of Joint CSIRUGC NET for Mathematical Sciences is specially published for the aspirants of Junior Research Fellowship (JRF) and Lectureship Eligibility Exam. The book is equally useful for State Eligibility Test (SET) also. The book comprises several Solved Practice Test Papers for CSIRUGC NET exams on the subject. Detailed Explanatory Answers have also been provided for selected questions which are provided in such a manner to be useful for both study and selfpractice from the point of view of the exam. The book will also serve as a true test of your studies and preparation for the exam. The book is aimed at sharpening your problemsolving skills by practising with numerous questions incorporated in these practice papers, and face the exam with confidence, successfully.

This book has been prepared to meet the requirements of students preparing for GATE examination in Computer Science & Engineering discipline as per the prescribed.

An in-depth look at the changing sociolinguistic dynamics that have influenced South African society. To date, there has been no published textbook which takes into account changing sociolinguistic dynamics that have influenced South African society. Multilingualism and Intercultural Communication breaks new ground in this arena. The scope of this book ranges from macro-sociolinguistic questions pertaining to language policies and their implementation (or non-implementation) to micro-sociolinguistic observations of actual language-use in verbal interaction, mainly in multilingual contexts of Higher Education (HE). There is a gradual move for the study of language and culture to be taught in the context of (professional) disciplines in which they would be used, for example, Journalism and African languages, Education and African languages, etc. The book caters for this growing market. Because of its multilingual nature, it caters to English and Afrikaans language speakers, as well as the Sotho and Nguni language groups \_ the largest languages in South Africa [and also increasingly used in the context of South African Higher Education]. It brings together various inter-linked disciplines such as Sociolinguistics and Applied Language Studies, Media Studies and Journalism, History and Education, Social and Natural Sciences, Law, Human Language Technology, Music, Intercultural Communication and Literary Studies. The unique cross-cutting disciplinary features of the book will make it a must-have for twenty-first century South African students and scholars and those interested in applied language issues.
