Lie detection, offender profiling, jury selection, insanity in the law, predicting the risk of re-offending, the minds of serial killers and many other topics that fill news and fiction are all aspects of the rapidly developing area of scientific psychology broadly known as Forensic Psychology. Forensic Psychology: A Very Short Introduction discusses all the aspects of psychology that are relevant to the legal and criminal process as a whole. It includes explanations of criminal behaviour and criminality, including the role of mental disorder in crime, and discusses how forensic psychology contributes to helping investigate the crime and catching the perpetrators. It also explains how psychologists provide guidance to all those involved in civil and criminal court proceedings, including both the police and the accused, and what expert testimony can be provided by a psychologist about the offender at the trial. Finally, David Canter examines how forensic psychology is used, particularly in prisons, to help in the management, treatment and rehabilitation of offenders, once they have been convicted. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get

ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Soccer Italian Style coaches Mirko Mazzantini (AFC Fiorentina) and Simone Bombardieri (Empoli FC) are both professional academy coaches and in this book demonstrate their brand new training program for U5-8 year olds. This book contains their detailed philosophy and methodology to train technique, individual tactics, motor skills and coordination, as well as 20 full sessions (100 practices).

This book includes a selection of articles from the 2017 International Conference on Information Technology Science (MosITS'17), held on December 1-3, 2017, at the Izmailovo Convention Centre, Moscow, Russia. MosITS'17 was an international forum for researchers and practitioners to present and discuss the most recent innovations, trends, results, experiences and concerns in various areas of information technology science. The papers cover topics such as information technology in communication, management science, public administration, economics, business & finance, history, health & rehabilitation, education, and in architecture.

Students heading for a career in business will benefit from researched and proven selling techniques. Professional sales skills are becoming increasingly important in today's business world. This text covers up-to-date academic topics and rich application materials, providing students with everything they need to understand and apply selling techniques. In the eleventh edition, Manning and Reece have invited Michael Ahearne to join their best-selling author team. Ahearne's experience as Associate Professor of Marketing and Executive Director of the Sales Excellence Institute, in addition to his extensive educational background, provides invaluable insight to this already well-researched text. Developing a Personal Selling Philosophy; Developing a Relationship Strategy; Developing a Product Strategy; Developing a Customer Strategy; Developing a Presentation Strategy; Management of Self and Others Advances in technology and changes in customer expectations mean that sales personnel need to be adaptive and employ the latest in selling techniques. The authors have updated this text with new research and new interactive tools to engage students and reinforce learning with doing.

Credit Analysis and Lending Management is a new Australasian text that focuses on the core lending functions of financial institutions, covering asset management, credit risk assessment and analysis, lending policy formulation and management, and the rise of new product development and marketing in the financial services sector. The value of any financial institution is measured by its ability to effectively manage and reduce its credit risk. This text details the structure of the credit

organisation, including loan markets. Relevant financial statements are presented to develop students' interpretative and analytical understanding of financial statements. Features: * Developments in loan marketing and new loan products are profiled and assessed (see chapter 17.) * Problem loan management is discussed as a growing professional issue (see chapter 16). * Detailed case studies at the end of the text present a diverse set of professional scenarios that can be used for assignment, assessment and group work activities. * 'Industry insight' boxes profile current professional issues and identify industry developments. * 'A day in the life of...' boxes highlight the diversity of professional roles in the banking industry.

Un ricchissimo manuale "DIY" (do it yourself) fresco ed elegante, per imparare a conoscere i fiori e le loro infinite potenzialità. Istruzioni guidate, consigli e ispirazioni per creare splendide composizioni di foglie, bacche e boccioli. Fatti il mazzo! è un manuale d'ispirazione e di suggerimenti pratici, ma soprattutto un invito a sviluppare un'attenzione e una particolare sensibilità nei confronti dell'espressione più alta della botanica: i fiori. Tavole dettagliate, fotografie scattate ad hoc e istruzioni guidate passo a passo insegneranno al lettore a riconoscere le infiorescenze, la loro stagionalità, le loro caratteristiche estetiche e biologiche, e infine a comporre e valorizzarle al meglio, per dare vita a mazzi legati e scenografici bouquet. Attraverso queste nozioni, petalo dopo petalo, si schiuderanno nuovi e più ampi orizzonti riguardo all'ambiente e all'arte: i principi per comporre qualcosa di bello sono, in fondo, universali, gli stessi in pittura come in musica o in floricoltura.

Erin Hunter, bestselling author of the Warriors and Survivors series, continues to explore the world of bears and their environment in Seekers, the thrilling ecological adventure saga. In Return to the Wild #2: The Melting Sea, Kallik has almost reached home. The bears who have become her family--Lusa, Yakone and Toklo--are devastated that they'll have to split up, but polar bears Kallik and Yakone belong on the ice, while the black and brown bears belong in the forest. At least Kallik will be reunited with her brother, Taqqiq. But when she and the others arrive at the Melting Sea, she is horrified to find the white bears almost starving due to an unnaturally early thaw. Worse, Taqqiq has rejoined a group of bullies who are terrorizing the other bears for food.
