geometry --Turbochargers and superchargers --Special fuels --Fault finding --Testing and tuning --Glossary of technical terms

Acclaimed as one of the most exciting books in the history of American letters, this modern epic became an instant bestseller upon publication in 1974, transforming a generation and continuing to inspire millions. This 25th Anniversary Quill Edition features a new introduction by the author; important typographical changes; and a Reader's Guide that includes discussion topics, an interview with the author, and letters and documents detailing how this extraordinary book came to be. A narration of a summer motorcycle trip undertaken by a father and his son, the book

becomes a personal and philosophical odyssey into fundamental questions of how to live. The narrator's relationship with his son leads to a powerful self-reckoning; the craft of motorcycle maintenance leads to an austere beautiful process for reconciling science, religion, and humanism. Resonant with the confusions of existence, Zen and the Art of Motorcycle Maintenance is a touching and transcendent book of life.

Motorcycle maintenance made easy: -- Aimed at the DIY mechanic and students embarking on courses in motorcycle engineering -- Service tasks are described in detail and illustrated with over 900 color photographs --Information on how to build up a toolkit and keep service records --Tools, testing and measuring equipment, oils and workshop equipment --Using a service schedule and keeping
