When her father goes missing, stolen from the timeline, shaman Joanne Walker must finally return to North Carolina to find him - and finally face the son she left behind long ago. Original.

It's the end of the world! 🇺🇲 Again. For all the bodies she's encountering, you'd think beat cop Joanne Walker works in Homicide. But no, Joanne's a reluctant shaman who last saved mankind three months ago!surely she deserves more of a break! Yet, incredibly, "Armageddon, Take Two" is mere days away. There's not a minute to waste. Yet when her spirit guide inexplicably disappears, Joanne needs help from other sources. Especially after she accidentally unleashes Lower World demons on Seattle. Damn. With the mother of all showdowns gathering force, it's the worst possible moment for Joanne to realize she should have learned more about controlling her powers. Or to discover she's being lied to! 🇺🇲

The last thing reluctant shaman Joanne Walker wants is to be assigned to a case of ritual murders. It'd be creepy enough all on its own, but her boss, already trusting her magic more than Jo does herself, suspects there's more to it than just a serial killer. As Joanne is pulled more deeply into the bloody mire, she begins to realize this is a murderer with a deadline-the changing winter moon seems to be key to the power they're building. But Joanne's not the only one entangled in the increasingly dangerous magic raised by the killer: she has a protector, someone who has already given up their life to keep Joanne safe...and who may be the only person able to stand between Joanne and a dark power far greater than she's ready to handle....

The mountaineer stereotype--violent people who preserve a traditional lifestyle and vote Republican--has been perpetuated through the years. McKinney found that the impact of the Civil War and the absence of blacks, rather than economic and geographical factors, were responsible for the persistence of Republican voting patterns. Also, mountain Republicanism was the conscious creation of politicians in a five-state region to shape their party to conform to local political conditions. Originally published 1978. Instead of powerful forces storming Seattle, a more insidious invasion is happening. Most of Joanne Walker's fellow cops are down with the blue flu/or rather the blue sleep. Yet there's no physical cause anyone can point to!and it keeps spreading. It has to be magical, Joanne figures. But what's up with the crazy dreams that hit her every time she closes her eyes? Are they being sent by Coyote, her still-missing spirit guide? The messages just aren't clear. Somehow Joanne has to wake up her sleeping friends while protecting those still awake, figure out her inner-spirit dream life and, yeah, come to terms with these other dreams she's having about her boss!.

Something wicked this way comes! Suddenly, being bitten by a werewolf is the least of Joanne Walker's problems. Her personal life in turmoil, her job as a cop over, she's been called to Ireland by the magic within her. And though Joanne's skills have grown by leaps and bounds, Ireland's magic is old and very powerful. In fact, this is a case of unfinished business. Because the woman Joanne has come to Ireland to rescue is the woman who sacrificed everything for Joanne!the woman who died a year ago. Now, through a slip in time, she's in thrall to a dark power and Joanne must battle darkness, time and the gods themselves to save her.

Joanne Walker has three days to learn to use her shamanic powers and save the world from the unleashed Wild Hunt. No worries. No pressure. Never mind the lack of sleep, the perplexing new talent for healing herself from fatal wounds, or the cryptic, talking coyote who appears in her dreams. And if all that's not bad enough, in the three years Joanne's been a cop, she's never seen a dead body!but she's just come across her second in three days. It's been a bitch of a week. And it isn't over yet.
