This research monograph is the first authoritative work on the office of the Welsh Language Commissioner and the associated Welsh language regulatory and statutory regime. In setting the Commissioner in context – in Wales, the UK and internationally – the work draws upon a rich variety of source material arising from fieldwork conducted in a number of jurisdictions. The research data includes, for example, an extensive series of documents obtained under a number of Freedom of Information applications, in-depth interviews with key actors from pertinent legislatures, governments, regulatory offices, interest groups and civic society. The linguistic coverage of source material includes English and Welsh, as well as, where relevant, Irish, German, Catalan, Spanish, French and Basque, in a publication which is multi-disciplinary in approach, engaging with the scholarly and professional literature in language policy and planning, socio-legal studies and the politics of language.

Provide a description about the book that does not include any references to package elements. This description will provide a description where the core, text-only product or an eBook is sold. Please remember to fill out the variations section on the PMI with the book only information. The languages covered in the tests are English (1st language) and Hindi (2nd language).

This substantial and original book examines how the EU Private International Law (PIL) framework is functioning and considers its impact on the administration of justice in cross-border cases within the EU. It grew out of a major project (ie EUPILLAR: European Union Private International Law: Legal Application in Reality) financially supported by the EU Civil

Justice Programme. The research was led by the Centre for Private International Law at the University of Aberdeen and involved partners from the Universities of Freiburg, Antwerp, Wroclaw, Leeds, Milan and Madrid (Complutense). The contributors address the specific features of cross-border disputes in the EU by undertaking a comprehensive analysis of the Court of Justice of the EU (CJEU) and national case law on the Brussels I, Rome I and II, Brussels IIa and Maintenance Regulations. Part I discusses the development of the EU PIL framework. Part II contains the national reports from 26 EU Member States. Parts III (civil and commercial) and IV (family law) contain the CJEU case law analysis and several cross-cutting chapters. Part V briefly sets the agenda for an institutional reform which is necessary to improve the effectiveness of the EU PIL regime. This comprehensive research project book will be of interest to researchers, students, legal practitioners, judges and policy-makers who work, or are interested, in the field of private international law.

An autobiographical account of a young nurse's involvement in World War I

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.
