TASER® Conducted Electrical Weapons are rapidly replacing the club for law-enforcement control of violent subjects within many countries around the globe. A TASER CEW is a hand-held device that delivers a 400-volt pulse with a duration tuned to control the skeletal muscles

without affecting the heart at a distance of up to 6.5 meters over tiny wires. If necessary, it begins with an arcing voltage of 50,000 V to penetrate thick clothing; the 50,000 V is never delivered to the body itself. Due to the widespread usage of these devices and the widespread misconceptions surrounding their operation, this book will have significant utility. This volume is written for cardiologists, emergency physicians, pathologists, law enforcement management, corrections personnel, and attorneys.

This unique guide will serve as a street survival guide for public safety officers and supervisors alike. The author, Doctor Daniel Rudofossi, a sworn police officer and police psychologist in the NYPD and DEA among other agencies, offers a thorough assessment and intervention guide for clinicians and public safety professionals in dealing with mentally ill persons. Using his technique, the Eco-Ethological Existential Analytic method, he presents an original approach toward compassionate and safe interventions with mentally ill citizens who become involved with public safety officers. It will open the doors to an effective and highly meaningful guide officers can put into practice immediately, so that officers and supervisors can maximize the outcome of safe and effective humane processing of mentally ill with the potential for violence. Case examples and

question-and-answer sections are also provided that offer user-friendly guidelines for ensuring custody to rehabilitation of the mentally ill street person. The guide also provides information on how to gain self-care and referral to peers when the stressors of dealing with the mentally ill start to increase to burnout and "compassion fatigue" in first responders and mental health counselors. It will also provide a wide overview as well as in-depth coverage of the evolving specialty of police psychology. The book will prove to be an invaluable resource for a wide audience of professional police officers, emergency medical technicians, firefighters, military guard, public and private security, criminal justice practitioners, counselors, social workers and others in responding to such crises. From triage through the police custodial role to outreach and cooperation with local and community mental health clinics, the approaches offered in this book will lead to the best of all possible outcomes.

This insightful book examines the allegations against the professionalism, transparency, and integrity of law enforcement toward minority groups, from a global perspective. It addresses the challenges inherent in maintaining strong ties with members of the community, and draws attention to obstacles in ensuring public

confidence and trust in rule of law institutions. Most importantly, the book provides insight into mechanisms and proposals for policy reform that would permit enhanced police-community partnership, collaboration and mutual respect. Acknowledging the consistency of this concern despite geographic location, ethnic diversity, and religious tolerance, this book considers controversial factors that have caused many groups and individuals to question their relationship with law enforcement. The book examines the context of police-community relations with contributed research from Nigeria, South Africa, Kosovo, Turkey, New Zealand, Mexico, Scandinavia and other North American and European viewpoints. It evaluates the roles that critical factors such as ethnicity, political instability, conflict, colonization, mental health, police practice, religion, critical criminology, socialism, and many other important aspects and concepts have played on perceptions of policing and rule of law. A valuable resource for law enforcement practitioners and researchers, policy makers, and students of criminal justice, *Policing and Minority Communities: Contemporary Issues and Global Perspectives* confronts crucial challenges and controversies in policing today with quantitative and qualitative research and practical policy recommendations.

In one of the most illuminating portraits of police work ever, Chief Charles Campisi describes the inner workings of the world's largest police force and his unprecedented career putting bad cops behind bars. "Compelling, educational, memorable...this superb memoir can be read for its sheer entertainment or as a primer on police work—or both" (Kirkus Reviews, starred review). From 1996 to 2014 Charles Campisi headed NYPD's Internal Affairs Bureau, working under four police commissioners and gaining a reputation as hard-nosed and incorruptible. During Campisi's IAB tenure, the number of New Yorkers shot, wounded, or killed by cops every year declined by ninety percent, and the number of cops failing integrity tests shrank to an equally startling low. But to achieve those exemplary results, Campisi had to triple IAB's staff, hire the very best detectives, and put the word out that corruption wouldn't be tolerated. Blue on Blue provides "a rare glimpse inside one of the most secretive branches of policing...and a compelling, behind-the-scenes account of what it takes to investigate police officers who cross the line between guardians of the public to criminals. It's a mesmerizing exposé on the harsh realities and complexities of being a cop on the mean streets of New York City and the challenges of enforcing the law while at the same time obeying it" (The New York Journal of Books). Campisi allows us to listen in on wiretaps and feel the adrenaline rush of drawing in the

net. It also reveals new threats to the force, such as the possibility of infiltration by terrorists. "A lively memoir [told with] verve, intriguing detail, and a generous heart" (The Wall Street Journal) and "an expose of the NYPD's Internal Affairs Bureaus [that is] enlightening and entertaining" (The New York Times Book Review), Blue on Blue will forever change the way you view police work.

In May 2010, NYPD officer Adrian Schoolcraft made national headlines when he released a series of secretly recorded audio tapes exposing corruption and abuse at the highest levels of the police department. But, according to a lawsuit filed by Schoolcraft against the City of New York, instead of admitting mistakes and pledging reform Schoolcraft's superiors forced him into a mental hospital in an effort to discredit the evidence. In *The NYPD Tapes*, the reporter who first broke the Schoolcraft story brings his ongoing saga up to date, revealing the rampant abuses that continue in the NYPD today, including warrantless surveillance and systemic harassment. Through this lens, he tells the broader tale of how American law enforcement has for the past thirty years been distorted by a ruthless quest for numbers, in the form of CompStat, the vaunted data-driven accountability system first championed by New York police chief William Bratton and since implemented in police departments across the

country. Forced to produce certain crime stats each quarter or face discipline, cops in New York and everywhere else fudged the numbers, robbing actual crime victims of justice and sweeping countless innocents into the police net. Rayman paints a terrifying picture of a system gone wild, and the pitiless fate of the whistleblower who tried to stop it.

The Handbook of Police Psychology features contributions from over 30 leading experts on the core matters of police psychology. In 1998 the author, a professional prankster, trademarked the phrase "freedom of expression" to show how the expression of ideas was being restricted. Now he uses intellectual property law as the focal point to show how economic concerns are seriously eroding creativity and free speech.

Examines police violence in America and sheds new light on the complex issues surrounding police brutality--urban crime, police frustrations, and cover-ups

"In this in-depth critique of the mental healthcare system, a leading advocate for the mentally ill argues that the system fails to adequately treat the most seriously ill. He proposes major reforms to bring help to schizophrenics, the severely bipolar, and others"--
