Pandemonium by Daryl Gregory is something special and Mr. Gregory has fast become one of my favorite authors — well played, sir, well played. Full of swimmingly good metaphors and delicious similes, AND seamlessly throwing down a very unique demonic possession story landscape with psychic undertones

~~Pandemonium by Daryl Gregory — Goodreads~~

Pandemonium is a rollicking run through American pop culture. Gregory weaves "real" people and history in with his alternate take on America with fantastic results. He hits all the Americana biggies- comics, sci-fi, movie icons, and more, often with a wink and nod to the reader. It is a fast paced read that is both inspired and inspiring.

In the 1950s, ordinary people of varying ages and backgrounds are possessed by entities that seem to spring from the collective unconscious, that many would call demons. It is believed that the key to resolving this plague pivots around the possessed DelP

From Daryl Gregory, whose Pandemonium was one of the most exciting debut novels in memory, comes an astonishing work of soaring imaginative power that breaks new ground in contemporary fantasy. Switchcreek was a normal town in eastern Tennessee until a mysterious disease killed a third of its residents and mutated most of the rest into monstrous oddities. Then, as quickly and inexplicably as it had struck, the disease – dubbed Transcription Divergence Syndrome (TDS) – vanished, leaving behind a population divided into three new branches of humanity: giant gray-skinned argos, hairless seal-like betas, and grotesquely obese charlies. Paxton Abel Martin was fourteen when TDS struck, killing his mother, transforming his preacher father into a charlie, and changing one of his best friends, Jo Lynn, into a beta. But Pax was one of the few who didn ' t change. He remained as normal as ever. At least on the outside. Having fled shortly after the pandemic, Pax now returns to Switchcreek fifteen years later, following the suicide of Jo Lynn. What he finds is a town seething with secrets, among which murder may well be numbered. But there are even darker – and far weirder – mysteries hiding below the surface that will threaten not only Pax ' s future but the future of the whole human race.

It is a world like our own in every respect . . . save one. In the 1950s, random acts of possession begin to occur. Ordinary men, women, and children are the targets of entities that seem to spring from the depths of the collective unconscious, pop-cultural avatars some call demons. There ' s the Truth, implacable avenger of falsehood. The Captain, brave and self-sacrificing soldier. The Little Angel, whose kiss brings death, whether desired or not. And a string of others, ranging from the bizarre to the benign to the horrific. As a boy, Del Pierce is possessed by the Hellion, an entity whose mischief-making can be deadly. With the help of Del ' s family and a caring psychiatrist, the demon is exorcised . . . or is it? Years later, following a car accident, the Hellion is back, trapped inside Del ' s head and clamoring to get out. Del ' s quest for help leads him to Valis, an entity possessing the science fiction writer formerly known as Philip K. Dick; to Mother Mariette, a nun who inspires decidedly unchaste feelings; and to the Human League, a secret society devoted to the extermination of demons. All believe that Del holds the key to the plague of possession – and its solution. But for Del, the cure may be worse than the disease. “ Look out, Lethem! Daryl Gregory mixes pop culture and pathos, flavoring it with Philip K. Dick. Pandemonium possesses every quality you want in a great novel, and the good news is it ' s only his debut. ” – Charles Coleman Finlay, Hugo and Nebula Award-nominated author of The Prodigal Troll

From award-winning author Daryl Gregory, whom Library Journal called “ [a] bright new voice of the twenty-first century, ” comes a new breed of zombie novel—a surprisingly funny, vividly frightening, and ultimately deeply moving story of self-discovery and family love. In 1968, after the first zombie outbreak, Wanda Mayhall and her three young daughters discover the body of a teenage mother during a snowstorm. Wrapped in the woman ' s arms is a baby, stone-cold, not breathing, and without a pulse. But then his eyes open and look up at Wanda—and he begins to move. The family hides the child—whom they name Stony—rather than turn him over to authorities that would destroy him.

Download Ebook Pandemonium Daryl Gregory

Against all scientific reason, the undead boy begins to grow. For years his adoptive mother and sisters manage to keep his existence a secret—until one terrifying night when Stony is forced to run and he learns that he is not the only living dead boy left in the world.

A PUBLISHER'S WEEKLY BEST BOOK of 2011! The short stories in this first collection by critically acclaimed writer Daryl Gregory run the gamut from science fiction to contemporary fantasy, with a few stories that defy easy classification. His characters may be neuroscientists, superhero sidekicks, middle-aged heroes of children's stories, or fanatics spreading a virus-borne religion, but they are all convincingly human.

When his mother disappears at sea, a teenage boy, who is attuned to the supernatural world, attempts, along with an unusual group of allies, to solve the mystery of her accident.

ONE OF THE WASHINGTON POST'S BEST BOOKS OF THE YEAR • The dark, gripping tale of a 1930 ' s family in the remote hills of the Smoky Mountains, their secret religion, and the daughter who turns her back on their mysterious god—from the acclaimed author of Spoonbenders. “ Gods and moonshine in the Great Depression, written with a tenderness and brutality ... this is as good as novels get. ” —Stephen Graham Jones, author of The Only Good Indians In 1933, nine-year-old Stella is left in the care of her grandmother, Motty, in the backwoods of Tennessee. The mountains are home to dangerous secrets, and soon after she arrives, Stella wanders into a dark cavern where she encounters the family's personal god, an entity known as the Ghostdaddy. Years later, after a tragic incident that caused her to flee, Stella—now a professional bootlegger—returns for Motty's funeral, and to check on the mysterious ten-year-old girl named Sunny that Motty adopted. Sunny appears innocent enough, but she is more powerful than Stella could imagine—and she ' s a direct link to Stella's buried past and her family's destructive faith. Haunting and wholly engrossing, summoning mesmerizing voices and giving shape to the dark, Revelator is a southern gothic tale for the ages.

When a girl who was addicted to a drug she helped develop dies in a detention facility, Lyda Rose, a scientist and patient at the same facility, receives help from an imaginary, drug-induced doctor to make things right while finding the other survivors of her development team. By the award-winning author of The Devil's Alphabet. 25,000 first printing.

A NEBULA AWARD FINALIST ONE OF NPR'S BEST BOOKS OF THE YEAR "Hilarious, heartfelt and brimming with humanity. ” —Cynthia D ' Aprix Sweeney, author of The Nest Teddy Telemachus is a charming con man with a gift for sleight of hand and some shady underground associates. In need of cash, he tricks his way into a classified government study about telekinesis and its possible role in intelligence gathering. There he meets Maureen McKinnon, and it ' s not just her piercing blue eyes that leave Teddy forever charmed, but her mind—Maureen is a genuine psychic of immense and mysterious power. After a whirlwind courtship, they marry, have three gifted children, and become the Amazing Telemachus Family, performing astounding feats across the country. Irene is a human lie detector. Frankie can move objects with his mind. And Buddy, the youngest, can see the future. Then one night tragedy leaves the family shattered. Decades later, the Telemachuses are not so amazing. Irene is a single mom whose ear for truth makes it hard to hold down a job, much less hold together a relationship. Frankie ' s in serious debt to his dad ' s old mob associates. Buddy has completely withdrawn into himself and inexplicably begun digging a hole in the backyard. To make matters worse, the CIA has come knocking, looking to see if there ' s any magic left in the Telemachus clan. And there is: Irene ' s son Matty has just had his first out-of-body experience. But he hasn ' t told anyone, even though his newfound talent might just be what his family needs to save themselves—if it doesn ' t tear them apart in the process. Harnessing the imaginative powers that have made him a master storyteller, Daryl Gregory delivers a stunning, laugh-out-loud new novel about a family of gifted dreamers and the invisible forces that bind us all.

Daryl Gregory's The Album of Dr. Moreau combines the science fiction premise of the famous novel by H. G. Wells with the panache of a classic murder mystery and the spectacle of a beloved boy band. It ' s 2001, and the WyldBoyZ are the world ' s hottest boy band, and definitely the world ' s only genetically engineered human-animal hybrid vocal group. When their producer, Dr. M, is found murdered in his hotel room, the “ boyz ” become the prime suspects. Was it Bobby the ocelot (“ the cute one ”), Matt the megabat (“ the funny one ”), Tim the Pangolin (“ the shy one ”), Devin the bonobo (“ the romantic one ”), or Tusk the elephant (“ the smart one ”)? Las Vegas Detective Luce Delgado has only twenty-four hours to solve a case that goes all the way back to the secret science barge where the WyldBoyZ ' journey first began—a place they used to call home. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
