The Valuation of Towers 8/2/01 Page 2. Wireless Telecommunications Technology ... real property if they are "affixed" to realty. The test is not simply whether the item (antenna) can be removed without material damage to it or to the realty to which it is affixed. Rather, the test is

The Valuation of Towers and Associated Real Property
The valuation models developed for financial assets are applicable for real assets as well. Real estate investments comprise the most significant component of real asset investments. For many years, analysts in real estate have used their own variants on valuation models to value real estate. Real estate is too different an asset class, they argue,
