This softcover text centers on the communication skills necessary for conducting a successful job search or making a change in jobs. The ability to conduct research online, present a professional image, and communicate well with potential employers is critical to any job search. The workshops provided give instruction on how to create effective resumes and cover letters, search for job information, prepare for a successful interview, understand job expectations, and make a job change. Multimedia components enhance the impact of the workshops so users can complete a variety of exercises on the computer, watch video footage of people effectively communicating on the job, and use the Internet to conduct further research.

Many scientists and engineers consider themselves poor writers or find the writing process difficult. The good news is that you do not have to be a talented writer to produce a good scientific paper, but you do have to be a careful writer. In particular, writing for a peer-reviewed scientific or engineering journal requires learning and executing a specific formula for presenting scientific work. This book is all about teaching the style and conventions of writing for a peer-reviewed scientific journal. From structure to style, titles to tables, abstracts to author lists, this book gives practical advice about the process of writing a paper and getting it published.

This handbook covers the vast field of business information systems, focusing particularly on developing information systems to capture and integrate information technology together with the people and their businesses. Part I of the book, “ Health Care Information Systems ” , focuses on providing global leadership for the optimal use of health care information technology (IT). It provides knowledge about the best use of information systems for the betterment of health care services. Part II, “ Business Process Information Systems ” , extends the previous theory in the area of process development by recognizing that improvements in intra-organizational business processes need to be complemented by corresponding improvements in inter-organizational processes. Part III deals with “ Industrial Data and Management Systems ” and captures the main challenges faced by the industry, such as the changes in the operations paradigm of manufacturing and service organizations. Finally, Part IV, “ Evaluation of Business Information Systems ” , discusses the empirical investigation into the adoption of systems development methodologies and the security pattern of the business systems along with the mathematical models.
