That's why the RevTech Engines are engineered to make huge power, early and long. We designed a wide power band for all occasions, whether ripping through the gears or grabbing a handful to pass, loaded down, riding two-up. You'll have more than enough ponies for whatever type of riding you do. Replaces 84-99 Evolution style engines.

1- Engines - RevTech Performance

There's no replacement for displacement! These 4" big bore cylinders with forged and coated KB pistons increase the displacement of an 88" Twin Cam to 97" and raise a 96" Twin Cam to a whopping 106" with no case machining. Both kits give you a 10:1 compression ratio. Available in black and natural finishes.

This all adds up to what RevTech believe to be the best engine available for your ride. What makes it all the more sweet is that the price is right and they make it in three finishes to match your taste and your budget. So yank that anaemic Evolution motor out of your frame and replace it with some real muscle, RevTech muscle. Proudly assembled in the USA. Crankcases: Cast from 356-T6 ...
