Old stale fuel left in a 4-cycle small engine, perhaps from sitting too long over the winter, can cause your 4-cycle engine to lose performance, or worse, cause it to stop working entirely. One of the ways to return a 4-cycle engine to peak performance is to clean the small engine carburetor. In some cases all that is needed is an adjustment, where carburetor cleaner is used to clean the exterior and the small passages, and a carburetor kit is used to replace old and worn out carburetor parts.
