Excerpts from the book: "It may be well for us to take a general view of the subject of Yoga. What is the end and aim of the teachings and the practices? What does it all mean? What is Man seeking for in all these endeavors? What does life, and growth, and development, and evolution mean? These are questions that thinking people are constantly asking, and which but few are able to answer even partially. The Yogi Philosophy teaches that the end of all human endeavor and life is to allow the soul to unfold until it reach with Spirit. And as Spirit is the divine part of man—the bit of God-material in him - this union eventually will result in what is known as Union with God - that is the bringing of the individual soul into conscious touch and union with the centre of all life."

Neoliberal education policies have privatised, marketised, decentralized, controlled and surveilled, managed according to the business and control principles of new public managerialism, attacked the rights and conditions of education workers, and resulted in a loss of democracy, critique and equality of access and outcome. This book, written by an impressive international array of scholars and activists, explores the mechanisms and ideologies behind neoliberal education, while evaluating and promoting resistance on a local, national and global level. Chapters examine the activities and impacts of the arguably socialist revolution in Venezuela, the Porto Alegre democratic community experimental model in Brazil, the activities of the Rouge Forum of democratic socialist teachers and educators in the USA, Public Service International, resistance movements against the GATS (General Agreement on Trade in Services), and trade union and social movement and community/parental opposition to neoliberal education policies in Britain and in Latin America.

R-- Dressing the Canon examines the relationship between gender and performance in a series of essays which combine the critique of specific live performances with an astute theoretical analysis. Alisa Solomon discusses both canonical texts and contemporary productions in a lively jargon-free style. Among the dramatic texts considered are those of Aristophanes, Ibsen, Yiddish theatre, Mabou Mines, Deborah Warner, Shakespeare, Brecht, Split Britches, Ridiculous Theatre, and Tony Kushner. Bringing to bear theories of 'gender performativity' upon theatrical events, the author explores: * the 'double disguise' of cross-dressed boy-actresses * how gender relates to genre (particularly in Ibsen's 'realism') * how canonical theatre represented gender in ways which maintain traditional images of masculinity and femininity.

Samuel Beckett is unique in literature. Born and educated in Ireland, he lived most of his life in Paris. His literary output was rendered in either English or French, and he often translated one to the other, but there is disagreement about the contents of his bilingual corpus. A Beckett Canon by renowned theater scholar Ruby Cohn offers an invaluable guide to the entire corpus, commenting on Beckett's work in its original language. Beginning in 1929 with Beckett's earliest work, the book examines the variety of genres in which he worked: poems, short stories, novels, plays, radio pieces, teleplays, reviews, and criticism. Cohn grapples with the difficulties in Beckett's work, including the opaque erudition of the early English verse and fiction, and the searching depths and syntactical ellipsis of the late works. Specialist and nonspecialist readers will find A Beckett Canon valuable for its remarkable inclusiveness. Cohn has examined the holdings of all of the major Beckett depositories, and is thus able to highlight neglected manuscripts and correct occasional errors in their listings. Intended as a resource to accompany the reading of Beckett's writing--in English or French, published or unpublished, in part or as a whole--the book offers context, information, and interpretation of the work of one of the last century's most important writers. Ruby Cohn is Professor Emerita of Comparative Drama, University of California, Davis. She is author or editor of many books, including *Anglo-American Interplay in Recent Drama: Retreats from Realism in Recent English Drama, From Desire to Godot, and Just Play: Beckett's Theater.*
