"Divided into six sections - communication and language, memory and recall, social cognition, social learning and teaching, numerical and quantitative abilities, and innovation and problem solving the Handbook allows readers to focus specifically on what they are interested in. Concise overviews in each section provide the history and basic concepts in each area, and are helpful for both newcomers to the field or specialists seeking to gain background in different areas. Each overview is followed by three to six entries for readers who are interested in learning more about a particular subject"--

This book contributes to the understanding of Dionysos, the Greek god of wine, dancing, theatre and ecstasy, by putting together 30 studies

of classical scholars. They combine the analysis of specific instances of particular dimensions of the god in cult, myth, literature and iconography, with general visions of Dionysos in antiquity and modern times. Only from the combination of different perspectives can we grasp the complex personality of Dionysos, and the forms of his presence in different cults, literary genres, and artistic forms, from Mycenaean times to late antiquity. The ways in which Dionysos was experienced may vary in each author, each cult, and each genre in which this god is involved. Therefore, instead of offering a new all-encompassing theory that would immediately become partial, the book narrows the focus on specific aspects of the god. Redefinition does not mean finding (again) the essence

of the god, but obtaining a more nuanced knowledge of the ways he was experienced and conceived in antiquity.

This book constitutes the refereed proceedings of the 7th International Conference on Concept Mapping, CMC 2016, held in Tallinn, Estonia, in September 2016. The 25 revised full papers presented were carefully reviewed and selected from 135 submissions. The papers address issues such as facilitation of learning; eliciting, capturing, archiving, and using "expert" knowledge; planning instruction; assessment of "deep" understandings; research planning; collaborative knowledge modeling; creation of "knowledge portfolios"; curriculum design; eLearning, and administrative and strategic planning

to identify itself as returning from Babylonian captivity. At the same time, a dearth of contemporary written evidence from Judah/Yehud and its environs renders any particular understanding of the process within its social, cultural and political context virtually impossible. This has led some to label the period a dark age or black box – as obscure as it is essential for understanding the history of Judaism. In recent years, however, archaeologists and historians have stepped up their effort to look for and study material remains from the period and integrate the local history of Yehud, the return from Exile, and the restoration of Jerusalem's temple more firmly within the regional, and indeed global, developments of the time. At the same time, Assyriologists have also been introducing a wide

range of cuneiform material that illuminates the economy, literary traditions, practices of literacy and the ideologies of the Babylonian host society – factors that affected those taken into Exile in variable, changing and multiple ways. This volume of essays seeks to exploit these various advances.
