Appreciation: Journalist Janet Malcolm's work was a marvel, both chilling and provocative

NEW YORK — Janet Malcolm, the inquisitive and boldly subjective author and reporter known for her challenging critiques of everything from murder cases and art to journalism itself, has died.

A seminal work and examination of the psychopathology of journalism. Using a strange and unprecedented lawsuit as her larger-than-life example -- the lawsuit of Jeffrey MacDonald, a convicted murderer, against Joe McGinniss, the author of Fatal Vision, a book about the crime -- she delves into the always uneasy, sometimes tragic relationship that exists between journalist and subject. In Malcolm's view, neither journalist nor subject can avoid the moral impasse that is built into the journalistic situation. When the text first appeared, as a two-part article in The New Yorker, its thesis seemed so radical and its irony so pitiless that journalists across the country reacted as if stung. Her book is a work of journalism as well as an essay on journalism: it at once exemplifies and dissects its subject. In her interviews with the leading and subsidiary characters in the MacDonald-McGinniss case -- the principals, their lawyers, the members of the jury, and the various persons who testified as expert witnesses at the trial -- Malcolm is always aware of herself as a player in a game that, as she points out, she cannot lose. The journalist-subject encounter has always troubled journalists, but never before has it been looked at so unflinchingly and so ruefully. Hovering over the narrative -- and always on the edge of the reader's consciousness -- is the MacDonald murder case itself, which imparts to the book an atmosphere of anxiety and uncanniness. The Journalist and the Murderer derives from and reflects many of the dominant intellectual concerns of our time, and it will have a particular appeal for those who cherish the odd, the off-center, and the unsolved.

Explores the relationship between journalists and their subjects, and the question of journalistic ethics, using the lawsuit of convicted murderer Jeffrey MacDonald against author Joe McGinniss, as a case study

'Every journalist who is not too stupid or too full of himself to notice what is going on knows that what he does is morally indefensible' In equal measure famous and infamous, Janet Malcolm's book charts the true story of a lawsuit between Jeffrey MacDonald, a convicted murderer, and Joe McGinniss, the author of a book about the crime. Lauded as one of the Modern Libraries "100 Best Works of Nonfiction", The Journalist and the Murderer is fascinating and controversial, a contemporary classic of reportage.

A study of a brutal multiple murder and its bizarre aftermath focuses on Jeffrey MacDonald, who was convicted, in 1979, of the murders of his pregnant wife and two young daughters nine years earlier.

Recounts the infamous Jeffrey MacDonald murder case and how it reflects shortcomings in the justice system, drawing on court transcripts, lab reports, and original interviews to consider the plausibility of MacDonald's innocence.

In an astonishing feat of literary detection, one of the most provocative critics of our time and the author of In the Freud Archives and The Purloined Clinic offers an elegantly reasoned meditation on the art of biography. In The Silent Woman, Janet Malcolm examines the biographies of Sylvia Plath to create a book not about Plath's life but about her afterlife: how her estranged husband, the poet Ted Hughes, as executor of her estate, tried to serve two masters—Plath's art and his own need for privacy; and how it fell to his sister, Olwyn Hughes, as literary agent for the estate, to protect him by limiting access to Plath's work. Even as Malcolm brings her skepticism to bear on the claims of biography to present the truth about a life, a portrait of Sylvia Plath emerges that gives us a sense of "knowing" this tragic poet in a way we have never known her before. And she dispels forever the innocence with which most of us have approached the reading of any biography.

"One of the premier narrative non-fiction writers of her time." "The New Republic Janet Malcolm's previous collection, Forty-One False Starts: Essays on Artists and Writers, was "unmistakably the work of a master" (The New York Times Book Review). Like Forty-One False Starts, Nobody's Looking at You brings together previously uncompiled pieces, mainly from The New Yorker and The New York Review of Books. The title piece of this wonderfully eclectic collection is a profile of the fashion designer Eileen Fisher, whose mother often said to her, "Nobody's looking at you." But in every piece in this volume, Malcolm looks closely and with impunity at a broad range of subjects, from Donald Trump's TV nemesis Rachel Maddow, to the stiletto-heel-wearing pianist Yuju Wang, to "the big-league game" of Supreme Court confirmation hearings. In an essay called "Socks," the Pevensies are seen as the "sort of asteroid [that] has hit the safe world of Russian Literature in English translation," and in "Dreams and Anna Karenina," the focus is Tolstoy, "one of literature's greatest masters of manipulative techniques." Nobody's Looking at You concludes with "Pandora's Click," a brief, cautionary piece about e-mail etiquette that was written in the early two thousands, and that reverberates—albeit painfully—to this day.

The electrifying true crime story of Dr. Jeffrey MacDonald, the handsome, Princeton-educated physician convicted of savagely slaying his young pregnant wife and two small children—murders he vehemently denies committing... Bestselling author Joe McGinniss chronicles every aspect of this horrifying and intricate crime and probes the life and psyche of the magnetic, all-American Jeffrey MacDonald—a golden boy who seemed destined to have it all. The result is a penetration to the heart of darkness that enshrouded one of the most complex criminal cases ever to capture the attention of the American public. It is a haunting, stunningly suspenseful work that no reader will be able to forget. Includes photographs and a Special Epilogue by the author OVER ONE MILLION COPIES SOLD

Examines in detail the trial of a young physician who was accused of hiring an assassin to kill her husband in the presence of their 4-year-old daughter and looks at the many issues surrounding events that played out in a court located in a Bukharan-Jewish community in Forest Hills, Queens, New York. By the author of *Two Lives: Gertrude and Alice*.

"[N]o other writer tells better stories about the perpetual, the unwinnable, battle between narrative and truth." --The New York Times Book Review *The Crime of Sheila McGough* is Janet Malcolm's brilliant exposé of miscarriage of justice in the case of Sheila McGough, a disbarred lawyer recently released from prison. McGough had served 2 1/2 years for collaborating with a client in his fraud, but insisted that she didn't commit any of the 14 felonies she was convicted. An astonishingly persuasive condemnation of the cupidity of American law and its preference for convincing narrative rather than the truth, this is also a story with an unconventional heroine. McGough is a zealous defense lawyer duped by a white-collar con man; a woman who lives, at the age of 54, with her parents; a journalistic subject who frustrates her interviewer with her maddening literal-mindedness. Spirited, illuminating, delightfully detailed, *The Crime of Sheila McGough* is both a dazzling work of journalism and a searching meditation on character and the law.
