The Rise of Merchant Empires edited by James D. Tracy

This volume examines the rise of the many different trading empires from the end of the Middle Ages to the eighteenth century. Synopsis European dominance of the shipping lanes in the early modern period was a prelude to the great age of European imperial power in the nineteenth and early twentieth centuries.

The Rise of Merchant Empires: Long-Distance Trade in the ...

Da Gama's voyage and that of Columbus, five years earlier, set Europeans on the path to global unification through the rise of merchant empires. The transformation of Europe from a lesser civilization perched on the western point of Eurasia into a cluster of empires brawling for domination of world trade is widely held to mark a turning point in world history.

The Rise of Merchant Empires, 1400–1700: A European ...

The Rise of Merchant Empires: Long Distance Trade in the Early Modern World, 1350-1750. European dominance of the shipping lanes in the early modern period was a prelude to the great age of European imperial power, in the nineteenth and early twentieth centuries. Yet in the present age of a new global interdependence we can see that the pre-imperial age was in fact more an "age of partnership" or an "age of competition" when Westerners and Asians vied on even.

Annotated Bibliography | Empire in Asia

The Political Economy of Merchant Empires focuses on why European concerns eventually achieved dominance in global trade in the period between 1450 and 1750, at the expense, especially in Asia, of well-organised and well-financed rivals.

Political Economy Merchant Empires: State Power and World ...

The Merchant Ship allows players to trade other resources for gold at another player 's Dock in exchange for any of the other three resources. Boats are more resistant to conversions than regular units. Minoan naval units cost less wood per unit and Yamato get more HP while Palmyran trade vessels get more gold per ship.
