First published in 1994, this book was hailed as a cutting-edge, theory-driven report from the front-line trenches in the battle for social justice. Both clinical and community oriented and written from a global perspective, it presents clients speaking for themselves alongside reports of prominent social work educators. This new edition puts greater emphasis on "how-to" skills in working with people toward their own empowerment and stresses multiculturalism. A new chapter identifies worldwide issues of oppression such as abuse of women and children and neglect of the mentally ill.

War and Drugs explores the relationship between military incursions and substance use and abuse throughout history. For centuries, drugs have been used to weaken enemies, stimulate troops to fight, and quell post-war trauma. They have also served as a source of funding for clandestine military and paramilitary activity. In addition to offering detailed geopolitical perspectives, this book explores the intergenerational trauma that follows military conflict and the rising tide of substance abuse among veterans, especially from the Vietnam and Iraq-Afghan eras. Addiction specialist Bergen-Cico raises important questions about the past and challenges us to consider new approaches in the future to this longest of US wars.

does What happens inside drug and alcohol rehabilitation centers and how rehab works are a mystery to those outside the industry – and sometimes even to those inside it. Anne M. Fletcher is a trusted New York Times bestselling health and medical writer who visited 15 addiction treatment centers—from outpatient programs for the indigent to famous celebrity rehabs; from the sites of renowned Twelve-Step centers to several unconventional programs—to find out what really happens. What she reveals ranges from inspirational to irresponsible, and, in some cases, potentially dangerous. Real Stories: As always with her books, Fletcher gets the inside story by turning to real people who “have been there,” interviewing more than 100 individuals whose compelling stories illustrate serious issues facing people in rehab and endemic in the rehab industry today. Connected Writer and Researcher who has earned the respect (and cooperation) of experts throughout the fields she’s taken on. Inside Rehab is no exception—Fletcher has interviewed more than 100 professionals working in the field, including a mix of rehab staffers and administrators as well as leading academics. Rehab is constantly covered in the media, as celebrities battle their drug and alcohol issues in the spotlight and reality TV puts recovery in prime time. Addiction is no longer only a personal struggle—it’s a pop culture phenomenon. Myth Busting: Fletcher exposes twelve supposed facts for the falsehoods they are, including “rehab is necessary for most people to recover from addictions;” “highly trained professionals provide most of the treatment in addiction programs;” and “drugs should not be used to treat a drug addict.” Fletcher’s most important finding is the alarming discrepancy

This expanded and updated Second Edition of Legal Issues in Child Abuse and Neglect Practice offers a state-of-the-art exploration of what role the law can play in bettering the lives of victimized children. While all who work with abused children share the same goals, there often exists a gap in communication between legal and helping professionals that reduces efficacy of cooperative efforts. This new edition continues to provide vital information to non-lawyers on how the legal system in the United States works in child abuse cases.
