White Paper 23-05 Neanderthal Ancestry Inference

So, I immediately furrowed my (Neanderthal) brow, joined the 23andMe discussion forum and searched for more answers on what this DNA result actually meant. Upon reading my DNA results and the related White Paper 23-05 "Neanderthal Ancestry Inference", some of the discussions on the topic, and further research on the Wikipedia.org: Neanderthal page, I found a wealth of information.

Roots & Leaves: Family History and Genealogy for the ...

Neanderthal DNA makes up approximately 2 percent of the genomes of present-day people of non-African descent (researchers believe that Neanderthals intermingled with modern humans after they emerged from Africa). Several studies suggest that Neanderthals may have harbored sequences that were deleterious for modern humans and therefore were expunged from the DNA of our ancestors. For example ...
